

Definitions for Status Codes

Blank	Sample Case, “Skeleton”, as it comes from the sample pull.
	“Blank” status Skeletons are sent to the county supervisors and FOB supervisors and are assigned to an analyst for review. The status code is sent to the analyst as a “blank” status and the status is updated to “S” status on supervisors system.
A	Case has been opened for data input.
	Monthly “edit all” program is run to verify data input. If there are fatal errors, the case remains in “A” status for correction. If the case has no fatal errors then the case is updated to “B” status and can be sent back to the supervisor as “B” status. The status will change to “C” status on analyst system upon transmission.
B	Case passed “Edit All” and is ready to be transmitted to the next level of review.
C	Case is complete and has been transmitted to the next level for review.
F	Case has been transmitted to federal agency, Food Stamps or TANF, for review.
H	Case is in “Hold” status waiting for updates. Used on Sacramento main computer system only.
Q	NEW status code on Sacramento main computer only. If a case passes “Edit All” then the status is changed to “Q” status to prevent running “Edit All” again.
S	Sample (skeleton) case has been transmitted to the next level of review and awaiting the return of completed case.
Y	Case has been transmitted to Food Stamps for review. (This is an old code from prior versions, but still is being used in the reporting tool.)
Z	Copy of a case. The case cannot be altered. Usually sent if reviewer needed help is reviewing a case.
Old W	Integrated case, a case that had both TANF and Food Stamp data to be transmitted to the federal agency separately. (Old status not being used since late 1997)
Old X	AFDC case, a case that has been transmitted to the federal agency. (Old status not being used since late 1997)
